

HIBC Approved Solution Provider

ÖSTLING Marking Systems GmbH
Brosshauser Str. 27
64625 Solingen
Germany

The Health Industry Barcode HIBC fulfils legal requirements for UDI and supplies most efficient solutions for marking and identification of medical devices. As a „Direct Coding System“ für product reference numbers (REF) and capacity for 10^{29} product codes per Labeler Identification Code (LIC) HIBC is appreciated highly both by manufacturers and hospitals by avoiding a second product reference. The users appreciate also the quality of HIBC systems.

The quality of HIBC is based on the professionalism and quality of the solution provider for marking and identification the products.

HIBC system providers having proved quality solutions become „HIBC Approved Solution Provider“ by appointment of EHIBCC.

The Approved HIBC Solution Provider „ÖSTLING Marking Systems GmbH“

- + provides professional HIBC conforming solutions in a quality manner
- + is updating the solutions timely in line with HIBC updates,
- + shows the HIBC Emblem at the web pages and where appropriate
e.g. on data sheets of products supporting HIBC solutions,
- + is showing the HIBC Solution Provider emblem as long the services are provided.

The HIBC Approved Solution Provider emblem is:
